(b) **Claims Related to Services.** For Customer's claims related to Service deficiencies or interruptions, Customer's exclusive remedies are limited to: (a) those remedies set forth in the SLA for the affected Service or (b) the total MRCs or usage charges paid by Customer for the affected Service in the one month immediately preceding the event giving rise to the claim if an SLA does not apply.

7. 911 Emergency Services-VoIP. You are purchasing a VoIP service (Hosted VoIP and CenturyLink IQ SIP Trunk Service, Analog VoIP Service, SIP Trunk Service, Managed Office Service, Managed Office Essentials, Core Connect, or HCS Service) from CenturyLink. The Federal Communications Commission (FCC) requires us to inform you about possible limitations to 911 access when using VoIP. VoIP is provided through an Internet connection rather than over the traditional phone network. This presents special challenges for 911 service. It is important for you to understand those challenges and your responsibilities. Below are some specific limitations of 911-calling with your service. Please see additional important limitations in the VoIP Provisions. CENTURYLINK RECOMMENDS THAT YOU AND YOUR END USERS ALWAYS HAVE AN ALTERNATIVE MEANS OF ACCESSING 911 SERVICES.

POTENTIALLY HAZARDOUS SITUATION WHICH IF NOT AVOIDED COULD RESULT IN DEATH OR SERIOUS INJURY. PLEASE READ THIS SECTION CAREFULLY, AND INITIAL THE 911 ACKNOWLEDGEMENT.

(a) **Location Limitations.** (including choice of telephone number (TN)). 911 emergency services may not be available or may be sent to an incorrect emergency service provider under certain circumstances, including: (i) when your service is initially installed - on average less than 24 hours, but possibly up to 72 hours due to the time required to update 911 databases; (ii) if you use your service at a location other than where it was originally installed, or if you move your handset or soft phone ("Device") without following processes designated by CenturyLink. **Note:** Some, but not all, CenturyLink VoIP services allow temporary moves of your Device. If temporary moves are permitted, your VoIP Provisions include the process required to temporarily change your 911 address. The FCC makes it your responsibility to keep your location address updated in CenturyLink's 911 records; (iii) if you select a TN associated with a geography other than your physical location (e.g., you chose a Colorado TN when you are located in California).

(b) **Other Limitations.** 911 dialing from your VoIP Service might fail for reasons other than physical location. For example, the service may fail or become degraded for reasons, such as (i) power outages, CPE failure (e.g., Internet connectivity routers, your data network and equipment, Customer premises switches and routers, and other Devices), cable cuts, or any service or broadband outage or degradation (including failures caused by suspension or termination of the Service); (ii) maintenance or repair work; or (iii) if your area does not have 911 emergency service.

(c) **VoIP Service-Specific Limitations.** PBX/IAD (Analog VoIP, Integrated Access, SIP Trunk) If your VoIP Service is used with a PBX or IAD, depending on the technical capabilities of the PBX or IAD and the options you choose to deploy, the number delivered to an emergency service provider may be different from the number the caller believes is being delivered. For example, a general PBX number may be delivered rather than a station number on a particular floor. In this case, the number sent to the emergency service provider will not be sufficiently specific to locate the site of the emergency on a particular floor. Remote BLA/SCA (Hosted VoIP, Managed Office, Managed Office Essentials) The remote bridged line appearance

CENTURYLINK® TOTAL ADVANTAGE® EXPRESS – AGREEMENT – Summary Page

("BLA") or shared call appearance ("SCA") VoIP functionality for the VoIP Service allows Customer to program its equipment to ring in 2 separate locations when a single phone number is dialed (i.e., the end user's house and business). When Customer moves from one location (and ringing premises) to another location, Customer must provide CenturyLink with its accurate service address. Customer must keep its CenturyLink-Approved 911 Location identified in the service portal up-to-date with the address of its current location. Failure to update the CenturyLink-Approved 911 Location with the new address location will prevent Customer's calls from routing to the correct PSAP. Customer should not use the VoIP Service at the new location until Customer has received a confirmation email at its address of record. Customer's address has not changed until CenturyLink has completed the 911 Update Interval. CenturyLink does not support Remote BLAs or Remote SCAs on IP Devices used with any other CenturyLink VoIP service regardless whether such service includes Hosted VoIP in the package or bundle. Voice Mail Only Seats (Hosted VoIP, CenturyLink IQ® SIP Trunk) 911 dialing is not supported for VoIP seats not associated with a stationary Device (for example, from Voice Mail Only Seats), unless you use another Device to place the call via the click to call feature in your End User portal. Use of SIP Trunk Diversion Headers on 911 Calls (SIP Trunk only) Customer may only use SIP Trunk Diversion Headers when using the Call Forwarding feature with VoIP Service. Customer shall not send SIP Trunk Diversion Headers on all calls, and in particular shall never send SIP Trunk Diversion Headers on 911 calls. Sending SIP Trunk Diversion Headers on a 911 call may cause the call to route to the incorrect PSAP, or to the correct PSAP but without the correct Customer phone number and location information. 911 Calls from Alien TNs (SIP Trunk only) When a 911 call is made from an Alien TN, CenturyLink cannot identify the location of the caller to forward to the appropriate PSAP. CenturyLink will therefore send any Customer 911 calls originated from an Alien TN to a live operator at a third-party contracted national 911 center. CenturyLink is charged a fee for each such call (currently \$75.00 per call), and will pass the charges on to Customer. To avoid incurring these charges, Customer and its End Users should not make 911 calls from Alien TNs.

(d) **Additional Information.** When you call 911, you should always state the nature of your emergency and provide your location and phone number. In some cases, the emergency service provider will be unable to call you back if your call does not complete or is dropped or disconnected, or if you are unable to tell the emergency provider your number and physical location. Additional limitations specific to your VoIP Service are in your VoIP Provisions.

8. Entire Agreement. This Agreement, including DT&C, Other Provisions, and any CenturyLink-accepted Order Forms constitute the entire agreement between the parties. This Agreement supersedes all prior oral or written agreements or understandings relating to the same service, ports, or circuits at the same locations as covered under this Agreement. Capitalized terms are defined in the DT&C and Other Provisions.

9. Purchase Orders. This Agreement controls over any Customer-issued purchase order, and any terms or conditions contained in a Customer-issued purchase order or other Customer ordering document will have no force or effect.

10. Uniform Resource Locators (URLS). References to URLs in this Agreement include any successor URLs designated by CenturyLink.
